Career Objective

To succeed in an environment of growth and excellence and earn a job which provides self-development, challenges, and opportunities for continuous learning. I aim to contribute positively to the organization's goals while enhancing my skills and knowledge, thus facilitating both personal and organizational growth.

Education

Kongu Engineering College, Erode <i>Master of Computer Applications (MCA)</i> <ul style="list-style-type: none">Current studies focusing on advanced computer applications.	2023 - Present GPA: 85%
Sri Ramakrishna Mission Vidyalaya, Coimbatore <i>Bachelor of Computer Science</i> <ul style="list-style-type: none">Internship on data visualization using Python for condition monitoring.	2020 - 2023 GPA: 75%
Sri Vidya Mandir Matric Higher Secondary School, Namakkal <i>Higher Secondary School Certificate (12th Grade)</i>	2019 - 2020 72.6%
Sri Vidya Mandir Matric Higher Secondary School, Namakkal <i>Secondary School Certificate (10th Grade)</i>	2017 - 2018 89.8%

Technical Skills

- Languages:** C,Python, Java
- Backend:** Node.js, Express.js
- Frontend:** React, HTML, CSS
- Developer Tools:** Postman, VS Code, GitHub

Areas of Interest

- Data Structures and Algorithms:** Interested in solving complex problems efficiently using data structures and algorithms.
- Database:** Proficient in database management with a keen interest in optimizing data storage, retrieval, and analysis

Projects

Data Visualization using Python

- Developed a data visualization project during my undergraduate studies.
- Utilized Python libraries such as matplotlib and seaborn for visualization.

Resume Builder using MERN Stack

- Created a web application for generating resumes using the MERN stack.
- Used MongoDB, Express.js, React.js, and Node.js for backend and frontend development.

Real Estate Application using MERN Stack

- Developed a real estate application using the MERN stack.
- Utilized MongoDB, Express.js, React.js, and Node.js for backend and frontend development.
- Implemented features such as property searches, and filtering for a user-friendly experience.

Internship Experience

ZF Group – Coimbatore

23rd Dec 2022 – 17th Feb 2023

Data Visualization Intern

- Worked on data visualization for condition monitoring in the Plant Engineering and Maintenance (PEM) department.
- Contributed to the development and implementation of visualizations to improve monitoring efficiency.
